

SPRINGFIELD FIRE DEPARTMENT

77 HARTNESS AVENUE
SPRINGFIELD, VERMONT 05156

August 31st 2015

Select Board Update August Activity:

226 Total Calls
185 EMS
32 Fire Calls
6 Rescue Calls
1 First Alarms
2 Second Alarms

11 Health Complaints

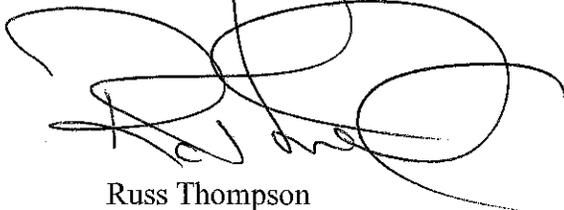

Monthly training was a water supply drill, water transfer, drafting and port-a-tank work.

The dry weather created a need to fill some wells with non-potable water.

Squad 6 is still out of service and is still being researched by Hillside. We hope to have it back in service within two weeks.

SFD members participated in no outside training this month.

Early in the month of August SFD members finished a project of placing the memorial stone that once was part of the Town Memorial permanently in the front of the fire station. When the WHH Slack Steamer and Hose Company went defunct there was a small sum of money that transitioned to the Millard Dutton Fund. Our fire department grew from the Slack Company and yet there was no recognition. This project gives a nice place for people waiting for meetings or the DMV testing to enjoy the air. The bench was purchased with the transitioned funds and donations. The work was completed by firefighters to have a lasting memory of our heritage. (Picture enclosed).

Russ Thompson
Fire Chief
