

### Mission

*“to empower local organizations and individuals committed to peacefully resolving conflict, addressing crime and building a safe and healthy community.”*

### 2013-2014 Strategic Plan

**Family Group Conferences (FGC’s) and Interventions** - An identified gap in Springfield is support for our clients and their families, specifically around substance abuse and recovery. We will begin to market our ability to do FCG’s and interventions for families.

**Transitional Housing** - This past year the SRJC created a housing program, things have gone well but there is much more of a need for these services. We will explore expanding the housing program from four participants to six or eight participants.

**Leisure skills** - In all the programs we offer we see our participants needing safe, productive, entertaining and useful things to do with their free time. We will explore collaborating with other agencies and creating our own opportunities for our participants through volunteer work and fun activities.

**Restorative Justice & our schools** - All community advisory board members continue to feel strongly about offering Restorative options to our school district. We will explore with the school district other options for Restorative services apart from peer panels which have not been sustainable in the past.
